PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science graduate from the University of Dar es Salaam with a strong foundation in full-stack software development, systems design, and IT infrastructure. Experienced in building scalable applications using TypeScript, Python, and modern frameworks. Certified in Full Stack Open (University of Helsinki) and Scrum Fundamentals. Eager to contribute technical expertise to a dynamic engineering team.

EDUCATION

Bachelor of Science in Computer Science

College of Information & Communication Technology (CoICT), University of Dar es Salaam · Expected: July 2026

WORK EXPERIENCE

Software Engineering Collaborator March 2026 – May 2026

Mainstream Group (Technology Division) · Dar es Salaam, Tanzania

- Contributed to software development, system design, and technical solution implementation across multiple projects.
- Engaged in agile workflows, code reviews, and cross-functional coordination to deliver project milestones.

Software Development Trainee July 2025 – September 2025

UDICTI / StartHub Africa Partnership · Dar es Salaam

- Collaborated on software development and application layout design for the Smart Cargo project.

IT Infrastructure & Network Optimization Trainee July 2024 – September 2024

TPC Limited · Tanzania

- Executed network switch upgrades, wireless router deployments, and static IP binding to optimize local network performance.
- Performed hardware diagnosis, repair, and maintenance on computers and peripheral devices.

PROJECTS

Plaquode Platform TypeScript · Node.js · React · Docker · Fly.io · Vercel

- Architected a TypeScript monorepo delivering digital connectivity tools with real-time analytics and secure identity layer.
- Deployed backend on Fly.io, frontend on Vercel; automated deployment with CI/CD pipelines and reverse proxy.

Strata (Final Year Project) Python · Streamlit · Docker

- Web-based code visualization utility parsing PHP codebases into ASTs and DAGs for academic system design requirements.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, PHP, SQL, Dart

Frameworks: React, Next.js, Node.js, Express, Streamlit, Tailwind CSS

Tools: Git, Docker, Fly.io, Vercel, Nginx, SSH, Postman, Figma, VS Code, OBS

Databases: MySQL, PostgreSQL, Supabase, Redis

Systems: Windows, Linux (Ubuntu, Fedora) · LAN Setup, Network Troubleshooting, Hardware Maintenance

Other: CI/CD Pipelines, Monorepo Architecture, REST API Dev, Scrum, Agile, AST/DAG Parsing

CERTIFICATIONS

Full Stack Open · University of Helsinki · July 2026 · Max Grade (5)

Scrum Fundamentals Certified (SFC) · SCRUMstudy · July 2026
